- Assisting in the development and implementation of software according to defined standards
- Assisting in the creation of the system specifications
- Assisting in the work preparation
- Software development
- Installation part – electrical installations

#### Use your skills.

- Technical training (technical school or higher technical college preferably in the fields of electrical engineering, automations, electronics)
- Work experience: at least 1 year of experience in commissioning
- Skills in software development (TIA Portal (STEP7), SCL, STL, FBD, WinCC, C#, C/C++)
- Language skills (English mandatory, German is an advantage)
- Microsoft Office skills
- AutoCAD skills
- Driving license
- Analysis and problem-solving skills
- Ability to work in a team
- Initiative

#### Gain more.

- Attractive salary depending on your qualifications and experience
- Flexible working hours and the opportunity for work from home
- A pleasant working atmosphere with a "first-name" culture in a company where employees come first
- Challenging, independent work in an innovative, creative environment
- Paid language courses
- Health and recreation benefits
- Family incentives
- Healthy snack and coffee for free in a brand-new office in Zagreb
- Lots of internal events - so that we don't miss out on having fun together
- Professional and personal training opportunities for your further development
