

Career Opportunity in Automotive Development & Design

Greetings,

We are looking for a motivated full-time employee to join our growing automotive development team.

Remote work is possible, with offices located in Ivanić - Grad, Croatia.

Requirements:

- Excellent English skills
- Good communication skills
- Technical background (high school or college education) - diploma is not required
- Highly motivated and interested in pursuing a career in the automotive industry
- Previous experience in vehicle development or similar projects is a strong advantage
- CAD experience is required, preferably CATIA V5 (surfacing)
- Willingness to travel internationally approximately three times per year

Responsibilities:

- Participate in the development of a new vehicle project for a major UK automotive manufacturer and international OEM suppliers
- Work on both interior and exterior components
- Contribute to concept design activities
- CAD work in CATIA V5 (training and support will be provided, but a basic CAD background is required)
- Project management activities, including milestone tracking, schedule management, meeting organization, and coordination
- Learn and grow together with the team as we establish cooperation with this new customer

General:

- We are forming a young and ambitious team of four engineers to learn and grow together on this project
- Long-term project with a stable outlook (3+ years)
- Mentorship and guidance from experienced European automotive professionals
- Direct cooperation with some of the world's leading automotive OEMs and suppliers
- A chance to make a visible impact on real vehicle development projects

We are looking for passionate individuals who are eager to learn, take responsibility, and leave their personal signature on the products they help create.

If you are interested, please send your CV and a short introduction to damir.vuksan.zg@gmail.com
